## **IR / Press Release**

**Amsterdam, 8 December 2011**

### **ABN AMRO meets EBA Core Tier 1 capital ratio requirements in EBA capital exercise**

ABN AMRO notes the announcements made today by the European Banking Authority (EBA) and De Nederlandsche Bank (DNB) regarding the capital exercise, which demonstrate the following result for ABN AMRO.

The capital exercise proposed by the EBA and agreed by the European Council on 26 October 2011 requires banks to strengthen their capital positions by building up a temporary capital buffer against sovereign debt exposures to reflect current market prices. In addition, it requires them to establish a buffer such that the Core Tier 1 capital ratio as defined by EBA reaches a level of 9% by the end of June 2012. The amount of any final capital shortfall identified is based on September 2011 figures. The amount of the sovereign capital buffer will not be revised.

71 banks across Europe, including ABN AMRO, were subject to the capital exercise whose objective is to create an exceptional and temporary capital buffer to address current market concerns over sovereign risk and other residual credit risk related to the current difficult market environment. This buffer would explicitly not be designed to cover losses in sovereigns but to provide a reassurance to markets about banks' ability to withstand a range of shocks and still maintain adequate capital.

Following completion of the capital exercise conducted by the EBA, in close cooperation with DNB, the exercise has determined that ABN AMRO meets the 9% EBA Core Tier 1 ratio after the removal of the prudential filters on sovereign assets in the Available-for-Sale portfolio and prudent valuation of all sovereign debt accounted for in the Held-to-Maturity and Loans and receivables portfolios, reflecting current market prices. ABN AMRO meets the minimum requirement with an EBA Core Tier 1 ratio of 10.6%<sup>1</sup>.

The methodology underlying the capital exercise was outlined by the EBA prior to its announcement to ensure consistency across all banks in the EU banking system involved in the exercise.

Please find further details regarding the outcome of the capital exercise in the annexes.

<sup>1</sup> The Core Tier 1 ratio according to the ABN AMRO definition as reported in the Q3 2011 Trading update was 10.9% as per 30 September 2011

**Please note that the information in this press release does not comprise financial statements or a trading update. The outcome of the capital exercise as set out herein should in no way be construed as a forecast of any type, including as to profits or dividend distributions.**

The results of the capital exercise should not be considered as representative of the current situation or possible present or future capital needs. A capital exercise does not provide forecasts of expected outcomes.

This press release should be read in conjunction with the audited financial statements as part of the ABN AMRO Group N.V.'s 2010 Annual Report and Pillar 3 Disclosure 2010 and ABN AMRO Group N.V.'s Trading Update dated 18 November 2011. All amounts in this press release are unaudited.

### **Cautionary statement on forward-looking statements**

Other information in this press release may constitute "forward-looking statements" within the meaning of the safe harbour provisions of the United States Private Securities Litigation Reform Act of 1995. This includes, without limitation, such statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'should', 'intend', 'plan', 'probability', 'risk', 'Value-at-Risk ("VaR")', 'target', 'goal', 'objective', 'will', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions.

In particular, these forward-looking statements relate, but are not limited, to ABN AMRO Group's potential exposures to various types of market risk, such as counterparty risk, interest rate risk, foreign exchange rate risk and commodity and equity price risk. Such statements are subject to risks and uncertainties. These forward-looking statements are not historical facts and represent only ABN AMRO Group's beliefs regarding future events, many of which, by their nature, are inherently uncertain and beyond our control.

Other factors that could cause actual results to differ materially from those anticipated by the forward-looking statements contained in this document include, but are not limited to:

- the extent and nature of future developments and continued volatility in the credit markets and their impact on the financial industry in general and ABN AMRO Group in particular;
- the effect on ABN AMRO Group's capital of write-downs in respect of credit exposures;
- risks related to ABN AMRO Group's merger, separation and integration process;
- general economic conditions in the Netherlands and in other countries in which ABN AMRO Bank has significant business activities or investments, including the impact of recessionary economic conditions on ABN AMRO Group's revenues, liquidity and balance sheet;
- actions taken by governments and their agencies to support individual banks and the banking system;
- monetary and interest rate policies of the European Central Bank and G-20 central banks;
- inflation or deflation;
- unanticipated turbulence in interest rates, foreign currency exchange rates, commodity prices and equity prices;
- potential losses associated with an increase in the level of substandard loans or non-performance by counterparties to other types of financial instruments;
- changes in Dutch and foreign laws, regulations and taxes;
- changes in competition and pricing environments;
- inability to hedge certain risks economically;
- adequacy of loss reserves;
- technological changes;
- changes in consumer spending, investment and saving habits; and
- the success of ABN AMRO Group in managing the risks involved in the foregoing.

The forward-looking statements made in this press release are only applicable as at the date of publication of this document. ABN AMRO Group does not intend to publicly update or revise these forward-looking statements to reflect events or circumstances after the date of this report, and ABN AMRO Group does not assume any responsibility to do so. The reader should, however, take into account any further disclosures of a forward-looking nature that ABN AMRO Group may make in ABN AMRO Group's reports.

**Notes and definitions**

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees
- (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
- (3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

### Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

(1) It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination represent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

(2) The country identifies the reference entity single name of the CDS and other contracts.

(3) Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
